1cloud reaches for the sky

KUALA LUMPUR: The nation's first end-to-end computing service 1cloud was recently launched at G Tower, here.

More than 200 people were present to witness the unveiling of the service developed by nex.kloud, a specialist in cloud computing, and MacroLynx, an enterprise-class Internet provider.

Partners of 1cloud include HP, Microsoft, VMware and WatchGuard.

The service, which became available in October last year, is subscribed to by 10 private companies.

Its developers hope to increase subscription to 150 companies by year end.
